## PROJECTS

<b>Claytinstagram:</b>	<b>Framework: Laravel</b>
<b>Instagram clone,</b> 2020 <a href="#">Github</a> , <a href="#">Demo</a>	Built an Instagram clone that was made following a tutorial in order to learn Laravel. Once I completed the tutorial, I implemented the ability to like, and leave comments on posts to improve my understanding of Laravel.
<b>Nook's Cranny</b> <b>ecommerce site,</b> 2020 <a href="#">Github</a> , <a href="#">Demo</a>	<b>Framework: React.js</b> <b>API: <a href="#">ACNH API</a></b> Created an ecommerce website based on the shop "Nook's Cranny" from Animal Crossing. Implemented searching for items, and a shopping cart.
<b>Easybank</b> <b>Landing Page,</b> 2020 <a href="#">Github</a> , <a href="#">Demo</a>	<b>Framework: React.js</b> Implemented a landing page for a fictional bank for FrontendMentor.io. Followed the designs given to create the landing page from scratch. Improved css grid skills and general layout abilities with this challenge.
